- Developed and laid down the foundation of two new investment assets, increasing user acquisition by 40% and integrated the latest permission principles for Android 13+ devices.

Krishi Techs, Remote Software Developer Intern Oct 2022 – Jan 2023

- Developed a login module using Firebase, improving login speed by 95%.
- Optimized base application architecture to MVVM, enhancing app startup time and debugging efficiency.
- Stabilized and debugged screen fragments, making local storage 100% faster and Developed a search post functionality.

PROJECTS

Personal Projects

- ScanEye**: A Google Lens clone application, a QR/Barcode Scanner with Snapchat like UI giving user a seamless experience. with a history of all the previous scanned/captured QRs. Uses :- *Firebase ML KIT, CameraX, MVVM, ROOM Database, Navigation Components, Live Data, ViewModels, SQLite, REST API*
- Movie DB**: An application that fetches movie details from the MovieDB API and displays a list of now playing movies to the user where the user can also bookmark movies there interested ones. Uses :- *MVVM, Retrofit, Glide, ROOM, ViewModel, Navigation Components, Paging3, Coroutines, API*
- Git Pocket App**: Built a tool for developers over Github to access repositories on various topics and languages. Fetch user's basic information including their own, in a single click with beautiful and best UI/UX. Uses :- *DI Dagger HILT, MVVM, LottieAnimation, OkHTTP, Retrofit, API Integration, Coroutines, SQLite, REST API*

Academic Projects

- Railway Reservation C++**: Developed a railway reservation system using C++, with a team of 3 members.
- TrackVerse S.E.**: Designed a model for a location based reminder application for Android Devices given as the college assignment, with a team of 2 members.

EDUCATION

University Of Delhi New Delhi, India Nov 2020 – Jun 2023

- B.Sc(Hons) Computer Science, CGPA: 8.27**
- Graduate Coursework**: Design and Analysis of Algorithms, Object-Oriented Design and Programming, Database Management Concepts and Systems, Software Engineering.

GBSSS Badarpur New Delhi, India Apr 2018 – Apr 2020

- Class XII, Passed with 92%

ACHIEVEMENTS

- Google Kickstart 2021** : Secured under 4000 rank in Google Kickstart
- Coding Profiles** : Max. 1658 on Codechef, Max. 1237 on Codeforces, Max 1473 on Leetcode
- PORs** : *Coordinator of Coding Club* at Parikalan, *Memeber of Coding Club* at Techwhiz, *Ex - Android Lead* at GDSC PGDAV

TECHNICAL SKILLS

- Kotlin, C++, Python, HTML, CSS, Java, XML, Flutter, Linux, Figma, Javascript, REST API
- Android, OkHTTP, Glide, MVVM, ROOM Persistence Storage, DI Dagger, Coroutines, Git, VS Code
- AWS, CI CD, Github, Google Cloud, Firebase, Data Structures, Algorithms, OOP, DSA, Problem Solving, Competitive Programming

SOFT SKILLS & SUMMARY

- Teamwork, Leadership, Communication, Organization, Analytical skills
- Time management, Problem Solving Skills, Creativity, Critical Thinking.
